(54) DISTRIBUTING METHOD

(57)Abstract:

PROBLEM TO BE SOLVED: To provide the viewing chance of contents to more customers by effectively using member information and to prevent a trade area, such as existing cinemas at distributing of the contents (movies, for example) via the network of the Internet, in a distributing method for distributing the contents.

SOLUTION: The distributing method is formed of a step for registering a place, where the contents are shown, a step for registering the place of the distributing destination of the contents and a step for deciding the propriety of the distribution of the contents, based on the place where the registered contents are put on screen and the place of the distributing destination of the registered contents.
